

SYMBIOTE NEXUS

Our Vision & Mission

Building off the momentum of our self-financed hit title *Fuse Wars, eclipsing well over \$3 million in sales and counting,* we proudly present to you our newest innovation...

Over a decade of Gaming Industry Experience

Expertise in game development, animation, and NFT infrastructure

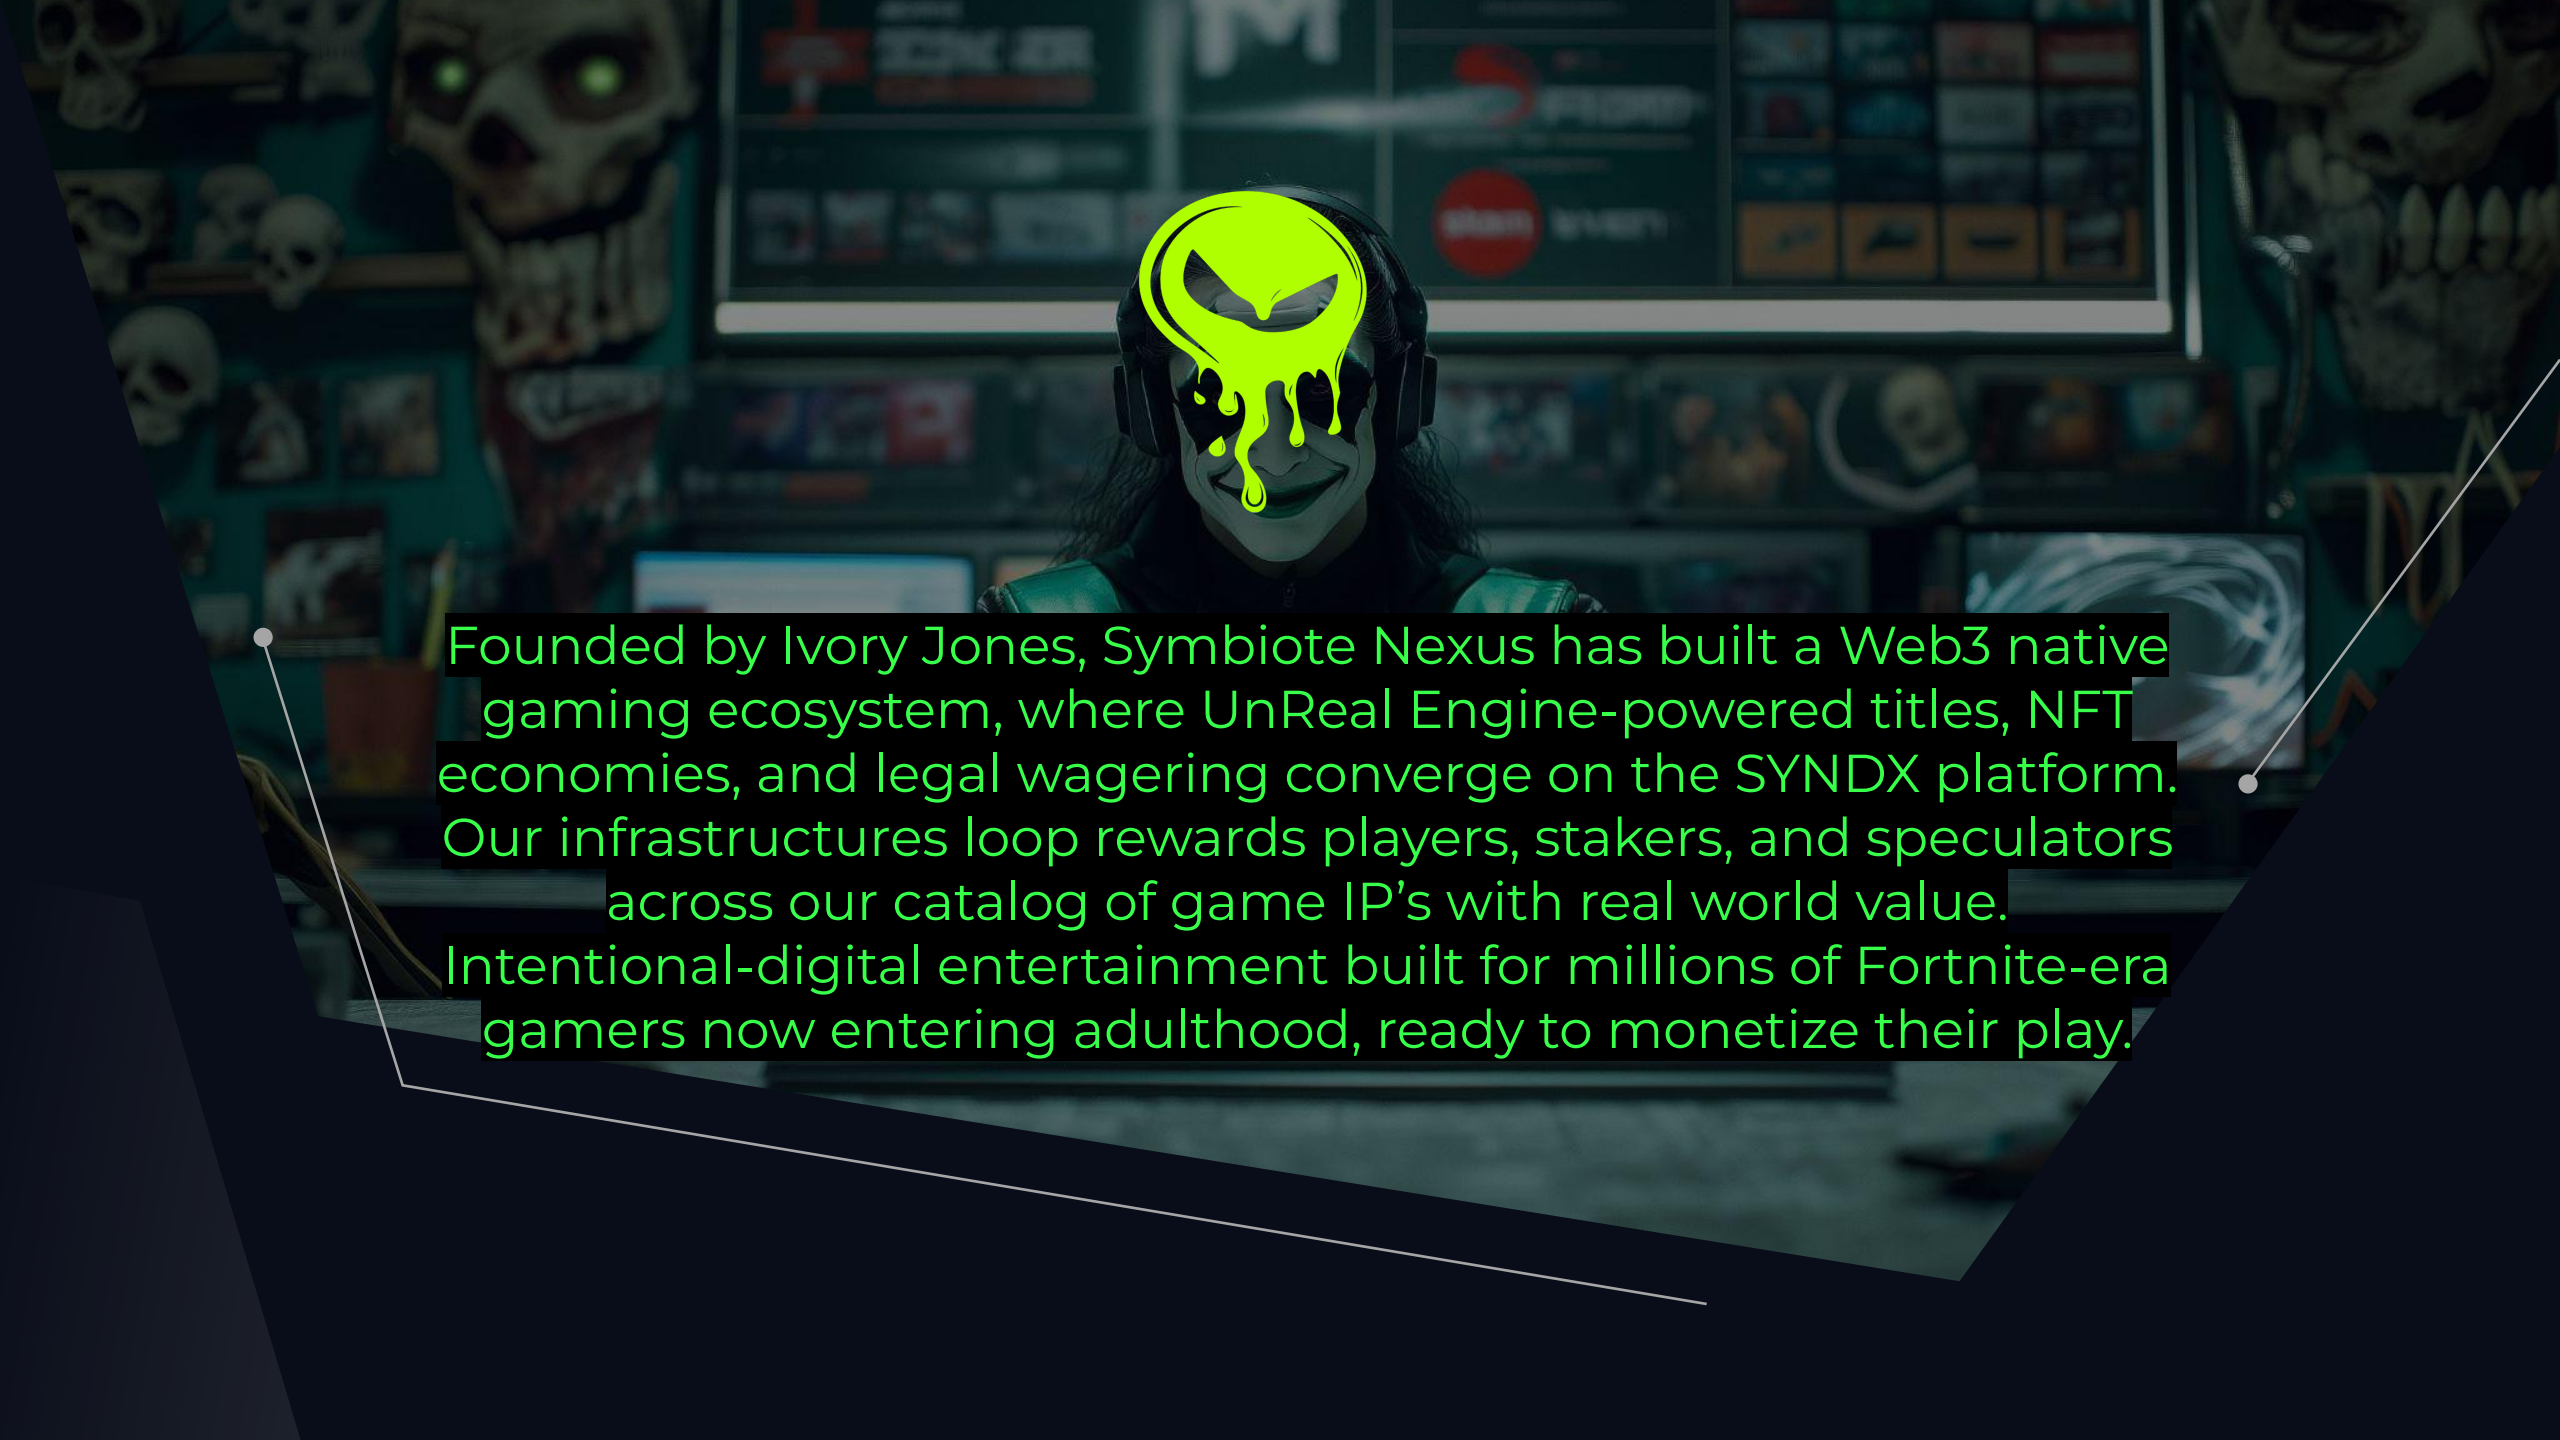

Person of Color leadership

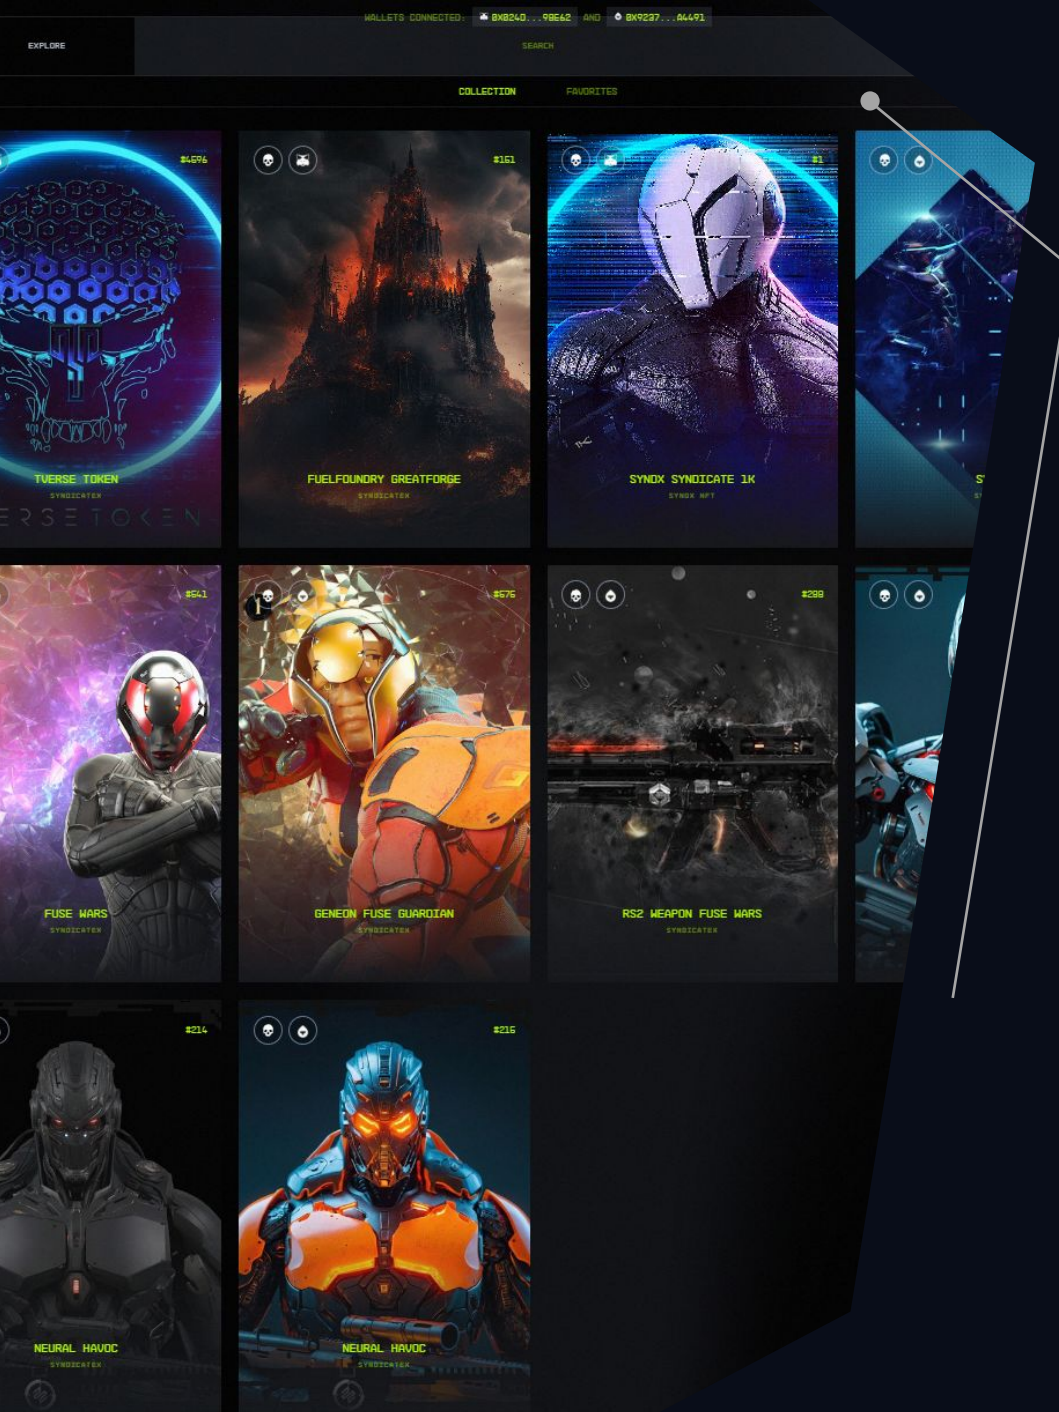

SyNdX

TIME IS MONEY...WE MADE IT PLAYABLE

LETS START

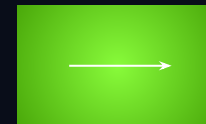

Founded by Ivory Jones, Symbiote Nexus has built a Web3 native gaming ecosystem, where Unreal Engine-powered titles, NFT economies, and legal wagering converge on the SYNDX platform. Our infrastructures loop rewards players, stakers, and speculators across our catalog of game IP's with real world value. Intentional-digital entertainment built for millions of Fortnite-era gamers now entering adulthood, ready to monetize their play.

ECONOMY

- AI-driven economy
- Comprehensive infrastructure
- Cross-game functionality throughout complete library of Game IP's.

ECONOMY

- Leverages DeFi principles
- Autonomous AI treasury-management
- Tokenized digital assets
- Decentralized and sustainable in its operation.
- Delivers value that is both continuous and scalable.

FUSEWARS

An online multiplayer third-person shooter where players engage in fast-paced arena battles, blending traditional Web2 action gameplay with Web3 blockchain integration for digital assets and rewards on a **Node-Based Infrastructure**

- ✓ Host Game Servers: Nodes manage game instances, reducing reliance on centralized servers and ensuring seamless multiplayer experiences.
- ✓ Validate In-Game Transactions: Nodes verify blockchain transactions, such as NFT trades, rewards, and achievements.
- ✓ Support Governance: Node operators participate in the decision-making process, voting on game updates and ecosystem improvements.

VOIDBORN

Horror-themed action-strategy game where players take control of an advanced Symbiote inside a living host under parasitic siege – your objective is to eradicate the deadly parasites before they consume the host's body.

TAKERS VAULT

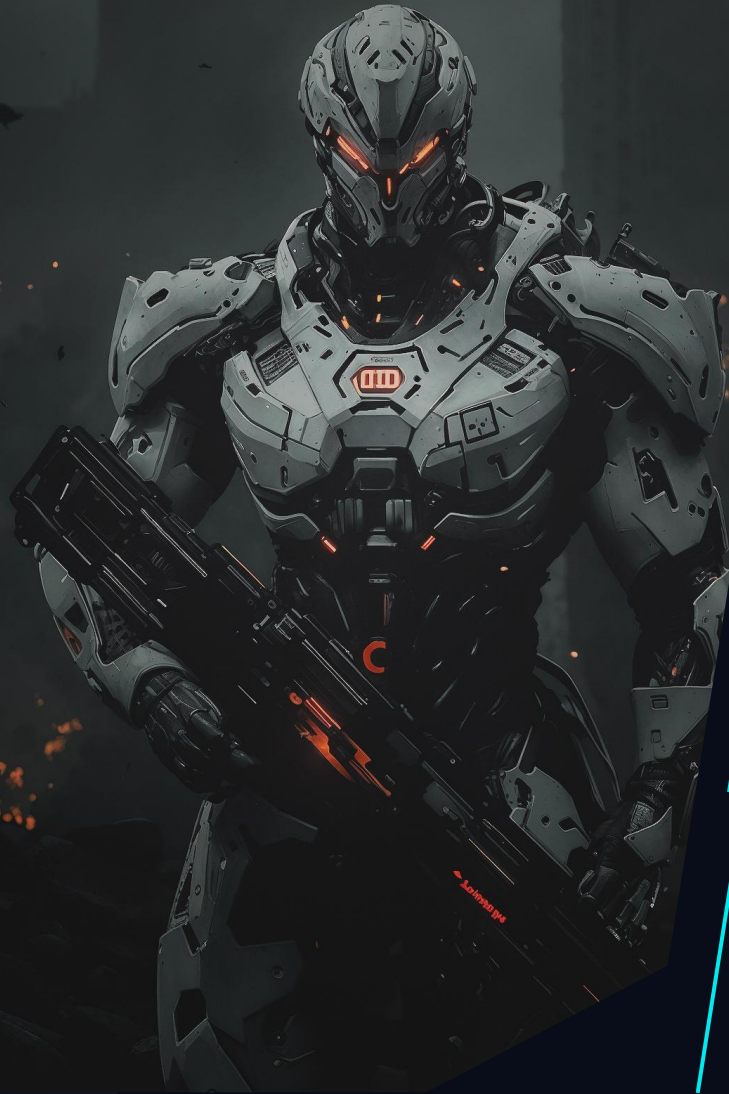

The Ultimate Bank Robbery is a high-intensity, event-based FPS extraction shooter built around limited-time heist scenarios – players team up to infiltrate vaults and steal tokenized crypto and NFT loot, then must successfully extract before it's too late. The first of our IP's to debut as part of the SYNDX platform.

NEURAL HAVOC

Neural Havoc is a high-stakes, AI-driven top-down shooter where synthetic soldiers battle across a war-torn world on the brink of alien invasion. The game blends fast-paced combat, co-op campaigns, and blockchain-based rewards — allowing players to extract tokens, upgrade characters, and trade rare loot across chains like SOL, IMX, and Theta. It's more than just a game — it's a decentralized battlefield where performance, ownership, and strategy collide. Risk It All for Real Rewards

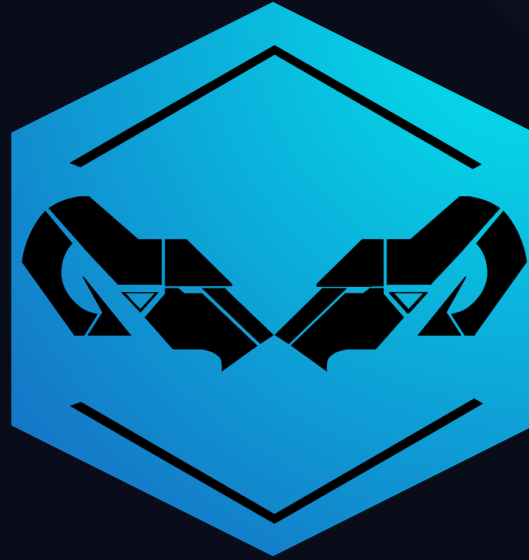

- ✓ **Automatically trade NFTs**, identifying arbitrage opportunities between high-utility builds or limited-time loot.
- ✓ **Forecast staking and yield trends**, adapting strategies in real time to maximize passive earnings.
- ✓ **Advise players dynamically**, answering questions like: “What should I stake today?” or “Which gear will pump after the next patch?”

SYNDX COMMUNITY: MARKETING

Partnership provides discounted access for premium physical/digital marketing services.

G.O.A.T. LVL: Esport Tournaments, Real-Time customer behavioral analytics, delivering content, additional revenue & long term value—exclusive to SYNDX.

Whitelist exclusive group entry driving loyalty, feedback, and rewards across each games IP
